Re: 2004 Scholarship Award

Dear Eric,

I have been asked by the Robert Caton Scholarship Selection Committee to contact you to inform you that you have been selected as this year's recipient of the Robert Caton Scholarship. As you know, this is the first award of the Robert Caton Scholarship and we are very pleased that you are the initial scholarship recipient. This is a \$1,000.00 award and our committee has arranged for the award to be credited to you.

I think you are aware of the high regard that friends, colleagues and business associates held for Bob and we are pleased that his work on behalf of the environment and in support of students can be remembered by the annual award of scholarships in his name. Bob was a tireless supporter of environmental improvement and conducted his work with lofty goals and unshakeable integrity. The areas of your academic studies reflect the high technical achievement and personal goals that Bob supported throughout his life and we hope that this award in some way contributes to your achievement of your own academic and personal goals.

We are very pleased to provide you with this support and the awards committee was impressed with your presentation. Although there were a number of worthy candidates, it was important for the committee to recognize the personal and academic achievement demonstrated in your application. Also, we are very pleased to award the scholarship in a technical area so close to Bob's personal interest. Good luck in your personal and academic career.

Yours truly,

William Lightowlers
